Admin. Services  
Office of General Counsel

25 October 1951

Contract with

25X1A

1. No specific reference is found to specifications for completion of the water system. (Article 1 (1) ) Also, it is noted that this work may not be done, depending upon the results of test drilling for water. This might require an adjustment in the contract price.

2. Article 11 (Eight hour law) and Article 17 (minimum wages) need not have been included in this contract, since it is to be performed outside the U. S. It is preferable not to include such articles since they inflate the bids.

3. Otherwise, the contract appears to be in proper legal form.
